BE A PART OF OUR TEAM. BE THE "GAME-CHANGER"

Commissioned in the year 1986, SRI SHIRDI SAI GROUP OF EDUCATIONAL INSTITUTIONS is the most sought-after destination for students from all across the State, drawn together with different academic aspirations and dreams. With a distinguished track record in mainstream education, and with great success stories, we are one of the top institutions in the twin Telugu states emerging as the leading contributors to nation-building.

We're proud of the reputation we've established for the range and rigour of our academic offerings, the outstanding quality of our facilities, and perhaps most importantly the care and attention we provide to each of our students.

SRI SHIRDI SAI GROUP OF EDUCATIONAL INSTITUTIONS - A place unlike the rest

Students education isn't just about succeeding while they are here....

It is about preparing for whatever comes next. Supported with inclusive curricula that expose them to a new outlook beyond the walls of classroom, the students here are setting new trails through distinct academic merits and excellence in all quarters. Nationally & internationally, they are making their way to the most leading universities and colleges across the globe.

ONE ROOF. Diverse Curricula...

The Bespoke Curricula - a simple, yet distinctive and solid underlying philosophy of our institution is to offer an integrated education which celebrates the individual talents and worth of each child. We firmly believe in rich Indian traditional education amalgamated with present competitive pedagogy.

Our academically rigorous programme is complemented in the diverse streams for Class XI & XII laying a wholesome ground for students to branch out in holistic ways. While scholastic responsibility is met with the right blend of facility and determined efforts of faculty, the curriculum at SRI SHIRDI SAI GROUP OF EDUCATIONAL INSTITUTIONS gives the students an ideal climate to grow and an extensive area to balance their aspirations with the comprehensive global prospects.

Nothing stops us from being the BEST!!
